

WIRELESS PEOPLE & VEHICLE COUNTER WITH CHIME PC-PIR15-D

DESCRIPTION:

A weatherized wireless sensor, the PC-PIR15-D functions indoors or outdoors for both people and vehicle counting. This sensor can be installed anywhere, without any wiring. The PC-PIR15-D can be mounted directly above or at an angle over the lane or entryway. It includes a built-in transmitter, receiver with chime and counter LCD display. The chime's volume settings are low, medium, high and off. A programmable delay allows for a group of visitors to be counting as a single unit or to count trailers as part of the same vehicle.

FEATURES:

- Specially designed sensor mounts easily anywhere (no reflector to align)
- Receiver with integrated chime, the LCD display can mount on a wall or rest on a counter
- Weather-resistant sensor for indoor or outdoor use.
- Two detection patterns: 50ft (long range) or 17ft. (fan pattern), adjusts easily
- Low-battery indication tone and LED flash alerts to replace batteries before power failure
- Flexible mounting options
- Operating temperature 15-120°F

PARAMETER	MIN	TYP	MAX	UNITS
IR Sensor Range (17ft max. in fan pattern – 50ft max. in long range)	-	10	50	Feet
Detection Area (mounted 14 ft above ground in fan pattern)	-	-	17 x 2	Feet
Radio Transmission Range	-	100	1000 (LOS)	Feet
Supply Voltage	-	9	-	Volts DC
Battery life	-	2	4	Years
Battery type	9V Battery			
Enclosure	Sensor = 3.5L x 4.2W x 4.5" / Display = 3.3L x 3.3W x 1.25" / Chime = 5.5L x 3.2W x 1.1"D			

ORDERING:

- Wireless passive IR counter with chime & LCD, PC-PIR15-D

OPTIONAL UPGRADES:

- Wireless passive IR counter with chime & Count Recorder data collection, PC-PIR15-R
