

TRAFFIC COUNTER WITH PRESSURE HOSE SENSOR TC-PH50-D

DESCRIPTION:

A cost-effective solution, the TC-PH50-D is a pressure hose vehicle counter that increments for every axel of passing vehicles. Ideal for temporary or portable applications, it has an eight-digit LCD and can be upgraded for time/date stamped data using the Count Recorder data logger. Battery-operation facilitates easy installation and portability. This counter is not recommended for use in snow or ice.

FEATURES:

- › No external power required
- › Battery lasts seven years with LCD display, one year with Count Recorder
- › 50 foot pressure hose included
- › Mounting hardware included
- › Adjustable Sensitivity
