Kevin Stefko
Vice President

Dear Kevin and associates,

Thank you for your donation of time, resources, talent and money to the Just For Kids program of the Ursuline Sisters HIV/AIDS Ministry. Although I am sorry that I was not present while you packed backpacks for our kids and helped maintain the interior and exterior of our house, Bernie relayed to me how thoughtfully and conscientiously your team worked to help us.

It truly takes a village to educate the children in our community. By "building a bridge" to the under resourced in the community, new opportunities are created and ideas are expanded. Your donation helps us to provide alternative ways of approaching life and the materials and skills to follow through. One of our young men is studying engineering at YSU because, years ago, our former director sparked his curiosity with Lego educational kits.

I hope that we can partner again in the future.

Linda Titus

Director, Just for Kids Program
